

GENERAL INFORMATION

I. *Mycologia*

Mycologia is printed by Allen Press for the Mycological Society of America (ISSN 0027-5514). *Mycologia* publishes papers on all aspects of the fungi, including lichens. Subjects appropriate to the journal are physiology and biochemistry, ecology, pathology, morphology and development, systematics, cell biology and ultrastructure, genetics, molecular biology, evolution, applied aspects, and new techniques. Publication in *Mycologia* is for both members and nonmembers of the Mycological Society of America. Papers appropriate for the journal are:

- 1) regular articles reporting original research
- 2) notes or brief articles reporting research or new techniques
- 3) invited papers
- 4) reviews and mini reviews

The contents and abstracts of each issue are now available on the Internet at <http://apt.allenpress.com>

II. Mycological Society of America newsletter: *Inoculum*

Inoculum is published on-line six times a year by the Mycological Society of America (MSA). *Inoculum* is available on the MSA Web site at <http://msafungi.org>. *Inoculum* focuses on matters of interest to the mycological community. It includes news of mycologists; information on awards and funding; job opportunities; internships and fellowships; symposia and meetings; brief articles on issues of concern to mycologists; and the business matters of the Society. Issues of the newsletter are being made available with the express permission of the Council of the MSA.

Recent issues of the newsletter are available on this server. Single issues may be browsed and the search option queries all of the issues posted on the server. Useful search terms might include personal names, names of institutions, project titles, or names of meetings. Use "and" to search for a two word phrase, e.g., search for SMITH AND AWARD to find guidelines or the deadline for the Smith Award. Searches are not case sensitive. Items returned from the search will correspond to sections in the newsletter. The search will return the first line of any section containing the search term. Select an item on the search results list to see the full text of the section.

Submission of relevant material is encouraged and should be directed to: Dr. Jinx Campbell, Department of Coastal Sciences, University of Southern Mississippi, Gulf Coast Research Laboratory, 703 East Beach Drive, Ocean Springs, MS 39564, USA. Phone: 228-818-8878, Fax: 228-872-4264, E-mail: jinx.campbell@usm.edu

THE MYCOLOGICAL SOCIETY OF AMERICA

2008 MEMBERSHIP FORM

The MSA welcomes new members! The MSA is a scientific society dedicated to advancing mycology, i.e., the study of fungi of all kinds including mushrooms, truffles, lichens, yeasts, plant pathogens, and medically important fungi. The Society meets yearly by itself, or jointly with affiliated societies, to share current research on all aspects of fungal biology. The MSA encourages member participation at annual meetings by offering scholarships, research awards and travel grants to graduate students and regular members.

The Society publishes the journal *Mycologia* and an electronic newsletter, *Inoculum*, six times a year. Memberships that include subscriptions to *Mycologia* also receive on-line access to both html and PDF full text and supplementary materials (images, videos, etc.) from 2002 onwards, as well as on-line access to issues published prior to 2002 through JSTOR. For additional information see our Web page: www.msafungi.org

TYPE OF MEMBERSHIP

<input type="checkbox"/> Regular member, on-line <i>Mycologia</i>	\$98
<input type="checkbox"/> Student member, on-line <i>Mycologia</i>	\$50
<input type="checkbox"/> Regular member, print and on-line <i>Mycologia</i>	\$98
<input type="checkbox"/> Student member, print and on-line <i>Mycologia</i>	\$50
<input type="checkbox"/> Sustaining, print and on-line <i>Mycologia</i> , plus listing in <i>Mycologia</i> and <i>Inoculum</i>	\$278
<input type="checkbox"/> Life, one-time payment, includes <i>Mycologia</i> and <i>Inoculum</i>	\$1,500
<input type="checkbox"/> Associate, includes <i>Inoculum</i> only	\$50
<input type="checkbox"/> Emeritus without <i>Mycologia</i>	\$0
<input type="checkbox"/> Emeritus with <i>Mycologia</i>	\$50
<input type="checkbox"/> Family, add \$20 to a regular membership for each additional member	_____

AREAS OF INTEREST [Mark most appropriate area(s)]

- Cell Biology-Physiology** (including cytological, ultrastructural, metabolic regulatory and developmental aspects of cells)
- Ecology-Pathology** (including phytopathology, medical mycology, symbiotic associations, saprotrophic relationships and community structure/dynamics)
- Genetics-Molecular Biology** (including transmission, population and molecular genetics and molecular mechanisms of gene expression)
- Systematics-Evolution** (including taxonomy, comparative morphology, molecular systematics, phylogenetic inference, and population biology)

PAYMENT

CHECK [Please make payable to *The Mycological Society of America* and drawn in US\$ on a US bank]

CREDIT CARD: VISA MASTERCARD
